REPORT OF THE ATTORNEY GENERAL TO THE
CONGRESS OF THE UNITED STATES ON THE
ADMINISTRATION OF THE FOREIGN AGENTS
REGISTRATION ACT OF 1938, AS AMENDED,
FOR THE CALENDAR YEAR 1987

TO THE SENATE AND HOUSE OF REPRESENTATIVES OF THE
UNITED STATES OF AMERICA IN CONGRESS ASSEMBLED:

I have the honor to report on the administration of the Foreign Agents Registration Act of 1938, as amended, pursuant to Section 11 of the Act (22 U.S.C. 621), which requires the Attorney General to report from time to time to the Congress concerning the administration of the Act, as well as the nature, source and content of political propaganda disseminated or distributed by agents of foreign principals registered under the Act.

It has been the policy of the Department since 1950 to prepare a report each year. This report covers the administration and enforcement of the Foreign Agents Registration Act for the calendar year 1987.

The text of this year's report lists according to geographical area or nationality field all registrants who were registered at any time during the calendar year 1987. It includes the identity of the foreign principal(s), a description of the agent's activities, a total figure for monies received, and a description of the political propaganda disseminated.

PURPOSE OF THE ACT

The principal purpose of Congress in enacting the Foreign Agents Registration Act was to ensure that the Government and the people of the United States would be informed of the identity of persons engaging in political activities for or on behalf of foreign governments, foreign political parties and other foreign principals.

The amendments to the Foreign Agents Registration Act were designed to strengthen the basic purpose of the original Act -- i.e., to protect the interests of the United States by requiring complete public disclosure by persons acting for or in the interests of foreign principals where such activities are political in nature. The public disclosure required by the Act permits the Government and the people of the United States to be informed as to the identities and activities of such persons and to be better able to appraise them and the purposes for which they act. These amendments arose in connection with hearings held by the Senate Foreign Relations Committee in its examination of the interrelationships of nondiplomatic agents with the executive and legislative branches of the Government, as well as with our mass media.

Registration under the Act does not imply recognition by the United States Government of either the existence or legality of the foreign principal. Furthermore, registration does not indicate approval by the United States Government of the propaganda material disseminated or of the activities of the registered agent.

STATISTICAL SUMMARY

During the calendar year 1987, the Department received 157 new registration statements and terminated 195 registrations, leaving a total of 786 active registrations on file as of December 31, 1987. Individuals acting as officials or employees or rendering assistance to a registrant for or in the interest of the latter's foreign principal filed 822 short-form registration statements under the Act, bringing the present total of active short-form registration statements to 3,574. There were 453 agreements with new foreign principals reported by agents currently registered under the Act.

In this calendar year, the staff of the Registration Unit reviewed over 1,500 supplemental statements and processed approximately 15,000 pieces of both incoming and outgoing correspondence which involved other government agencies, registrants and the general public.

In 1987, the staff initiated the conversion from a manual to a computerized system of records. All pertinent information filed by current, and some terminated registrants, and short-form registrants, as well as information concerning the foreign principals, has been entered into the system. This Annual Report is based on material generated from this system. Further, the quarterly press releases and mailing of supplemental statement forms to the registrants are generated by this system. The staff is continuing to enter pertinent information filed by those registrants who have terminated their registrations prior to 1986.

ADMINISTRATION AND ENFORCEMENT

LITIGATION

In the case of Attorney General v. The Irish People, Inc., 502 F. Supp. 63 (D.D.C. 1980), 684 F.2d 928 (D.C.Cir. 1982), an action was commenced on August 15, 1976, against the defendant charging it with failure to register as an agent of a foreign principal as required by the Foreign Agents Registration Act. The defendant is the nominal owner and publisher of a nationally distributed weekly newspaper The Irish People. The complaint sought a mandatory injunction requiring the defendant to register and otherwise to comply with the Act. After losing a series of motions to dismiss, the defendant filed an answer denying the principal allegations of the complaint, raising a series of affirmative defenses, and asserting several counterclaims alleging violations of certain statutory rights. On our motion, the Privacy Act counterclaim was dismissed. The remaining counterclaim alleged illegal electronic surveillance and sought both monetary and injunctive relief. On August 8, 1980, the United States District Court for the District of Columbia ruled that certain documents to which we had earlier asserted a claim of state secrets privilege, and which the court had held to be privileged, were material to the defense, and must either be produced or the action would be dismissed. The Department filed a motion for reconsideration, based on the court's erroneous application of the principles of criminal law to a civil action and its failure to comply with the Federal Rules of Civil

Procedure. The court, without elaboration, denied our motion for reconsideration and granted the defendant's motion to dismiss.

The Department appealed this decision to the United States Court of Appeals for the District of Columbia Circuit. On July 2, 1982, the Court of Appeals overturned the dismissal and reinstated the complaint, ruling that the defendant was not entitled to the material. The court also agreed that even if the lower court had not erred on this issue, dismissal of our suit was not justified and some alternative should have been fashioned by the District Court, such as in the so-called Socialist Workers Party case, In re Attorney General of the United States, 596 F.2d 58 (2d Cir. 1979).

The defendant sought rehearing either before the original panel or the entire Court of Appeals. On September 9, 1982, the Court of Appeals denied the defendant's motion. The defendant filed a petition for certiorari with the United States Supreme Court, which we opposed on the basis that it was interlocutory, and on that basis certiorari was denied. Irish People, Inc. v. Attorney General, 459 U.S. 1172 (1983). A subsequent motion for reconsideration was also denied.

Upon remand to the District Court, both sides filed motions for summary judgment. The motions were argued in December 1983, and in July 1984, the Court granted the plaintiff's motion and denied the defendant's except on the issue of the selective prosecution defense. This issue was briefed by both parties and oral argument was held in December 1984.

On June 14, 1985, the District Court rejected the defendant's selective prosecution defense and granted an injunction requiring the defendant to register under the Act. This decision is reported at 612 F. Supp. 647 (D.D.C. 1985). The defendant noted an appeal, and on July 25, 1986 the Court of Appeals, in a per curiam opinion, affirmed the dismissal of the claim of selective prosecution. The Circuit Court found, however, that sufficient questions of fact had been raised that precluded the granting of summary judgment, and remanded the case to the District Court for trial. This decision is reported at 796 F.2d 520 (D.C.Cir. 1986).

Prior to trial, on March 2, 1987, the government, the defendant, and the Irish Northern Aid Committee, the registered agent of the Irish Republican Army, entered into an agreement under which the Committee would disclose its financial and allied support to the defendant, and the defendant would periodically report on the operation and circulation of its publication. In return the case against the defendant was dismissed, and the litigation concluded.

On October 31, 1986, the United States Attorney for the District of Columbia filed a criminal information against John Peter McGoff charging him with a willful failure to register as an agent of the Republic of South Africa, United States v. John P. McGoff, Crim. No. 86-369 (D.D.C. 1986) as required by the Foreign Agents Registration Act of 1938, as amended. The information alleged that McGoff, the president of Global Communications Corporation and Panax Corporation, holding companies through which he controlled numerous small daily and weekly newspapers

throughout the United States, had failed to file a registration statement with the Attorney General of the United States as required by sections 612(a) and 618(e) of the Act. The filing of the criminal information culminated a four year investigation into allegations which had initially surfaced in the South African media about the existence of a secret Department of Information "slush fund" used to finance South African front organizations and agents throughout the world. The information alleged that McGoff and South Africa secretly formed a joint venture to obtain the now-defunct Washington Star in an effort to promote a positive public image of South Africa, to publicize South Africa's "point of view" within the capital of the United States in an effort to change American policy towards that country, and, finally, to enhance the political and media influence of McGoff so that he could more effectively support various RSA projects in the United States. Defendant McGoff waived indictment by grand jury in May of 1985 in an extended effort to persuade the Department of Justice that the case should be settled civilly rather than by the commencement of the first criminal prosecution in over 20 years charging solely a violation of the Act. When the negotiation process failed the Attorney General approved the filing of the criminal information.

On November 12, 1986, the District Court for the District of Columbia (Judge Charles Richey) ordered that any motion to dismiss the charges on the basis that the prosecution was barred by the statute of limitations had to be filed by the defendant on or before November 24, 1986. To facilitate an early hearing on this matter, the parties stipulated that

the last alleged act of agency committed by the defendant occurred on June 13, 1979. The statute of limitations started to run on that date unless Section 618(e) of the Act postponed the operation of the statute until an actual registration by the agent occurred. The District Court heard oral argument on the issues raised in the defendant's motion on December 19, 1986. At the conclusion of oral argument, the court ruled, without benefit of a formal written opinion, that, even though the offense of failure to file a registration statement is clearly a continuing offense, the offense is completed and the statute of limitations is triggered once the agent's activities have ended. Based on the stipulation that the last alleged act of agency occurred on June 13, 1979, the District Court concluded that the five year statute of limitations (18 U.S.C. Section 3282) barred the prosecution of McGoff since the information had not been filed before June 13, 1984.

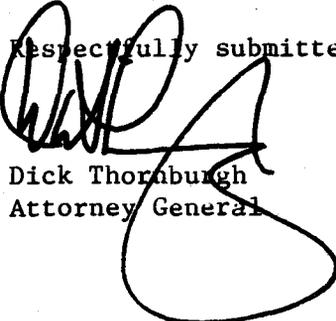

On March 18, 1987, the Attorney General authorized the filing of an appeal and oral argument was heard in the United States Court of Appeals for the District of Columbia Circuit on May 18, 1987, before Judges Bork, Re and Starr. On October 13, 1987, the Court of Appeals, with Judge Bork dissenting, affirmed the District Court decision that the statute of limitations commenced in a failure to register situation on the last day that the unregistered agent acted within the United States, United States v. John P. McGoff, 831 F.2d 1071(D.C.Cir. 1987). The Solicitor General decided on November 25, 1987, that the Department would not petition for a rehearing en banc.

OTHER INITIATIVES

The Registration Unit continued to conduct in-depth inspections of a broad spectrum of registrants pursuant to Section 615 of the Act. As a result of such inspections of books and records, it was determined in several cases that disclosures were inadequate, thereby necessitating the submission of amendments to registration statements.

Unit personnel also continued to conduct field and office conferences in order to assist new registrants in fully meeting their reporting obligations under the Act. The Department also has retained the practice of distributing copies of registration statements and supplements to interested departments and agencies of the Federal Government.

Respectfully submitted,

Dick Thornburgh
