

U.S. Department of Justice
Washington, DC 20530

Supplemental Statement

Pursuant to the Foreign Agents Registration Act of 1938, as amended

For Six Month Period Ending 07.31.2012

(Insert date)

I - REGISTRANT

1. (a) Name of Registrant (b) Registration No.
Daniel J. Edelman, Inc. 3634

(c) Business Address(es) of Registrant
200 E. Randolph Drive, Flr 63
Chicago, IL 60601x

2. Has there been a change in the information previously furnished in connection with the following?

(a) If an individual:

- (1) Residence address(es) Yes No
- (2) Citizenship Yes No
- (3) Occupation Yes No

(b) If an organization:

- (1) Name Yes No
- (2) Ownership or control Yes No
- (3) Branch offices Yes No

(c) Explain fully all changes, if any, indicated in Items (a) and (b) above.

N/A

IF THE REGISTRANT IS AN INDIVIDUAL, OMIT RESPONSE TO ITEMS 3, 4, AND 5(a).

3. If you have previously filed Exhibit C¹, state whether any changes therein have occurred during this 6 month reporting period.

Yes No

If yes, have you filed an amendment to the Exhibit C? Yes No

If no, please attach the required amendment.

¹ The Exhibit C, for which no printed form is provided, consists of a true copy of the charter, articles of incorporation, association, and by laws of a registrant that is an organization. (A waiver of the requirement to file an Exhibit C may be obtained for good cause upon written application to the Assistant Attorney General, National Security Division, U.S. Department of Justice, Washington, DC 20530.)

4. (a) Have any persons ceased acting as partners, officers, directors or similar officials of the registrant during this 6 month reporting period?

Yes No

If yes, furnish the following information:

Name	Position	Date Connection Ended
------	----------	-----------------------

(b) Have any persons become partners, officers, directors or similar officials during this 6 month reporting period?

Yes No

If yes, furnish the following information:

Name	Residence Address	Citizenship	Position	Date Assumed
Steven Felsher	61 E. 11th Street New York, NY 10003	United States	Member: Board of Directors	11.22.11
John Edelman	1401 N. Wieland Street, Unit L. Chicago, IL 60610	United States	Member: Board of Directors	11.22.11

5. (a) Has any person named in Item 4(b) rendered services directly in furtherance of the interests of any foreign principal?

Yes No

If yes, identify each such person and describe the service rendered.

(b) During this six month reporting period, has the registrant hired as employees or in any other capacity, any persons who rendered or will render services to the registrant directly in furtherance of the interests of any foreign principal(s) in other than a clerical or secretarial, or in a related or similar capacity? Yes No

Name	Residence Address	Citizenship	Position	Date Assumed
See Attached Document: in Attachment A, Page 04				

Supplemental Statement
"Answers"

(c) Have any employees or individuals, who have filed a short form registration statement, terminated their employment or connection with the registrant during this 6 month reporting period? Yes No

If yes, furnish the following information:

Name	Position or Connection	Date Terminated
Please See Attached Document: in Attachment A, Page 04		
Supplemental Statement "Answers"		

(d) Have any employees or individuals, who have filed a short form registration statement, terminated their connection with any foreign principal during this 6 month reporting period? Yes No

If yes, furnish the following information:

Name	Position or Connection	Foreign Principal	Date Terminated
See Question 5.C			

6. Have short form registration statements been filed by all of the persons named in Items 5(a) and 5(b) of the supplemental statement?

Yes No

If no, list names of persons who have not filed the required statement.

Additional Short Forms attached to this filing/report for:

1. Crain/Bombardier
2. Dufresne/Singapore
3. Kerner/UAE
4. Naple/UAE

II - FOREIGN PRINCIPAL

7. Has your connection with any foreign principal ended during this 6 month reporting period? Yes No
If yes, furnish the following information:

Foreign Principal	Date of Termination
Suzlon Energy	12.2011
Republic of Korea	01.2012
Panama Canal	01.2012

8. Have you acquired any new foreign principal(s)² during this 6 month reporting period? Yes No
If yes, furnish the following information:

Name and Address of Foreign Principal(s)	Date Acquired
Ministry of Foreign Affairs: United Arab Emirates	03.2012

9. In addition to those named in Items 7 and 8, if any, list foreign principal(s)² whom you continued to represent during the 6 month reporting period.

Bombardier, Inc.
Oerlikon Solar, Ltd.
Kongsberg Protech Systems
Republic of Singapore
Grupo Vicini

10. (a) Have you filed exhibits for the newly acquired foreign principal(s), if any, listed in Item 8?

Exhibit A³ Yes No
Exhibit B⁴ Yes No

If no, please attach the required exhibit.

- (b) Have there been any changes in the Exhibits A and B previously filed for any foreign principal whom you represented during this six month period? Yes No

If yes, have you filed an amendment to these exhibits? Yes No

If no, please attach the required amendment. New SOW for Grupo Vicini included in Attachment A: Activities

² The term "foreign principal" includes, in addition to those defined in section 1(b) of the Act, an individual organization any of whose activities are directly or indirectly supervised, directed, controlled, financed, or subsidized in whole or in major part by a foreign government, foreign political party, foreign organization or foreign individual. (See Rule 100(a) (9)). A registrant who represents more than one foreign principal is required to list in the statements he files under the Act only those principals for whom he is not entitled to claim exemption under Section 3 of the Act. (See Rule 208.)

³ The Exhibit A, which is filed on Form NSD-3 (Formerly CRM-157) sets forth the information required to be disclosed concerning each foreign principal.

⁴ The Exhibit B, which is filed on Form NSD-4 (Formerly CRM-155) sets forth the information concerning the agreement or understanding between the registrant and the foreign principal.

III. ACTIVITIES

-
11. During this 6 month reporting period, have you engaged in any activities for or rendered any services to any foreign principal named in Items 7, 8, or 9 of this statement? Yes No

If yes, identify each foreign principal and describe in full detail your activities and services:

See Attachment A: Activities ... (attached to this filing/report)

-
12. During this 6 month reporting period, have you on behalf of any foreign principal engaged in political activity⁵ as defined below? Yes No

If yes, identify each such foreign principal and describe in full detail all such political activity, indicating, among other things, the relations, interests and policies sought to be influenced and the means employed to achieve this purpose. If the registrant arranged, sponsored or delivered speeches, lectures or radio and TV broadcasts, give details as to dates, places of delivery, names of speakers and subject matter.

-
13. In addition to the above described activities, if any, have you engaged in activity on your own behalf which benefits your foreign principal(s)? Yes No

If yes, describe fully.

⁵ The term "political activity" means any activity that the person engaging in believes will, or that the person intends to, in any way influence any agency or official of the Government of the United States or any section of the public within the United States with reference to formulating, adopting or changing the domestic or foreign policies of the United States or with reference to political or public interests, policies, or relations of a government of a foreign country or a foreign political party.

IV FINANCIAL INFORMATION

14. (a) RECEIPTS-MONIES

During this 6 month reporting period, have you received from any foreign principal named in Items 7, 8, or 9 of this statement, or from any other source, for or in the interests of any such foreign principal, any contributions, income or money either as compensation or otherwise? Yes No

If no, explain why.

If yes, set forth below in the required detail and separately for each foreign principal an account of such monies.⁶

Date	From Whom	Purpose	Amount
------	-----------	---------	--------

See Attachments to this filing/report
B: Receipts & C: Disbursements

Total

(b) RECEIPTS - FUNDRAISING CAMPAIGN

During this 6 month reporting period, have you received, as part of a fundraising campaign⁷, any money on behalf of any foreign principal named in Items 7, 8, or 9 of this statement? Yes No

If yes, have you filed an Exhibit D to your registration? Yes No

If yes, indicate the date the Exhibit D was filed. Date _____

(c) RECEIPTS-THINGS OF VALUE

During this 6 month reporting period, have you received any thing of value⁹ other than money from any foreign principal named in Items 7, 8, or 9 of this statement, or from any other source, for or in the interests of any such foreign principal?

Yes No

If yes, furnish the following information:

Foreign Principal	Date Received	Thing of Value	Purpose
-------------------	---------------	----------------	---------

^{6, 7} A registrant is required to file an Exhibit D if he collects or receives contributions, loans, moneys, or other things of value for a foreign principal, as part of a fundraising campaign. (See Rule 201(e)).

⁸ An Exhibit D, for which no printed form is provided, sets forth an account of money collected or received as a result of a fundraising campaign and transmitted for a foreign principal.

⁹ Things of value include but are not limited to gifts, interest free loans, expense free travel, favored stock purchases, exclusive rights, favored treatment over competitors, "kickbacks," and the like.

15. (a) **DISBURSEMENTS-MONIES**

During this 6 month reporting period, have you

(1) disbursed or expended monies in connection with activity on behalf of any foreign principal named in Items 7, 8, or 9 of this statement? Yes No

(2) transmitted monies to any such foreign principal? Yes No

If no, explain in full detail why there were no disbursements made on behalf of any foreign principal.

If yes, set forth below in the required detail and separately for each foreign principal an account of such monies, including monies transmitted, if any, to each foreign principal.

Date	To Whom	Purpose	Amount
------	---------	---------	--------

See Attachments to this report:

B: Receipts &
C: Disbursements

Total

(b) DISBURSEMENTS-THINGS OF VALUE

During this 6 month reporting period, have you disposed of anything of value¹⁰ other than money in furtherance of or in connection with activities on behalf of any foreign principal named in Items 7, 8, or 9 of this statement?

Yes No

If yes, furnish the following information:

Date	Recipient	Foreign Principal	Thing of Value	Purpose
------	-----------	-------------------	----------------	---------

(c) DISBURSEMENTS-POLITICAL CONTRIBUTIONS

During this 6 month reporting period, have you from your own funds and on your own behalf either directly or through any other person, made any contributions of money or other things of value¹¹ in connection with an election to any political office, or in connection with any primary election, convention, or caucus held to select candidates for political office?

Yes No

If yes, furnish the following information:

Date	Amount or Thing of Value	Political Organization or Candidate	Location of Event
Date and Name of Employee: 07.2012 Ben Laws	\$50.00	Democratic Congressional Campaign Committee	Online
07.2012 Caryn Alagno	\$15.00	Mitt Romney	Online
07.2012 Maura Kinney	\$25.00	Barack Obama	Online
05.2012 Stuart Ramsey	\$15.00	Barack Obama	Online

^{10, 11} Things of value include but are not limited to gifts, interest free loans, expense free travel, favored stock purchases, exclusive rights, favored treatment over competitors, "kickbacks" and the like.

V - INFORMATIONAL MATERIALS

16. (a) During this 6 month reporting period, did you prepare, disseminate or cause to be disseminated any informational materials?¹²
 Yes No

If Yes, go to Item 17.

(b) If you answered No to Item 16(a), do you disseminate any material in connection with your registration?
 Yes No

If Yes, please forward the materials disseminated during the six month period to the Registration Unit for review.

17. Identify each such foreign principal.
 Republic of Singapore
 Ministry of Foreign Affairs: UAE

*All Press Releases attached. See Attachment A: Activities - Section: Press Releases

18. During this 6 month reporting period, has any foreign principal established a budget or allocated a specified sum of money to finance your activities in preparing or disseminating informational materials? Yes No

If yes, identify each such foreign principal, specify amount, and indicate for what period of time.

19. During this 6 month reporting period, did your activities in preparing, disseminating or causing the dissemination of informational materials include the use of any of the following:

- Radio or TV broadcasts
- Magazine or newspaper
- Motion picture films
- Letters or telegrams
- Advertising campaigns
- Press releases
- Pamphlets or other publications
- Lectures or speeches
- Other (specify) _____

Electronic Communications

- Email
- Website URL(s): _____
- Social media websites URL(s): _____
- Other (specify) _____

20. During this 6 month reporting period, did you disseminate or cause to be disseminated informational materials among any of the following groups:

- Public officials
- Newspapers
- Libraries
- Legislators
- Editors
- Educational institutions
- Government agencies
- Civic groups or associations
- Nationality groups
- Other (specify) _____

21. What language was used in the informational materials:

- English
- Other (specify) _____

22. Did you file with the Registration Unit, U.S. Department of Justice a copy of each item of such informational materials disseminated or caused to be disseminated during this 6 month reporting period? Yes No

Additional Information is attached with this filing.

23. Did you label each item of such informational materials with the statement required by Section 4(b) of the Act?

- Yes No Additional Information is attached with this filing.

¹² The term informational materials includes any oral, visual, graphic, written, or pictorial information or matter of any kind, including that published by means of advertising, books, periodicals, newspapers, lectures, broadcasts, motion pictures, or any means or instrumentality of interstate or foreign commerce or otherwise. Informational materials disseminated by an agent of a foreign principal as part of an activity in itself exempt from registration, or an activity which by itself would not require registration, need not be filed pursuant to Section 4(b) of the Act.

VI - EXECUTION

In accordance with 28 U.S.C. § 1746, the undersigned swear(s) or affirm(s) under penalty of perjury that he/she has (they have) read the information set forth in this registration statement and the attached exhibits and that he/she is (they are) familiar with the contents thereof and that such contents are in their entirety true and accurate to the best of his/her (their) knowledge and belief, except that the undersigned make(s) no representation as to truth or accuracy of the information contained in the attached Short Form Registration Statement(s), if any, insofar as such information is not within his/her (their) personal knowledge.

(Date of signature)

(Print or type name under each signature or provide electronic signature¹³)

September 11, 2012

/s/ Randall Corley

eSigned

¹³ This statement shall be signed by the individual agent, if the registrant is an individual, or by a majority of those partners, officers, directors or persons performing similar functions, if the registrant is an organization, except that the organization can, by power of attorney, authorize one or more individuals to execute this statement on its behalf.

FARA Supplemental Filing
August, 2012

BOMBARDIER

Below please find a brief summary of Edelman's work on behalf of Bombardier for its public relations efforts from 02/01/12 through 07/31/2012.

February 2012

Strategy Development

- Continued developing proposal and recommendations around global conferences that Bombardier CEO should attend and participate
- Continued developing proposal and recommendations around a signature Corporate Social Responsibility platform for Bombardier to execute in 2013

Media Relations

- Confirmed and staffed interviews between Bombardier CEO and media outlets:
 - Bloomberg News
 - Reuters
 - CCTV
 - CNBC
 - Financial Times

March 2012

Strategy Development

- Continued developing proposal and recommendations around global conferences that Bombardier CEO should attend and participate
- Continued developing proposal and recommendations around a signature Corporate Social Responsibility platform for Bombardier to execute in 2013

Media Relations

- Developed recommendations for media engagement at Milken Global Conference

April 2012

Strategy Development

- Held meeting in Montreal with Director of Corporate Communications to present CEO deployment plan and CSR activation plan

Media Relations

- Arranged interview and developed briefing materials for Bombardier CEO at Milken Global Conference:
 - Bloomberg Television

May 2012

Strategy Development

- Provided video content development recommendation
- Continued developing proposal and recommendations around a signature Corporate Social Responsibility platform for Bombardier to execute in 2013

Media Relations

- Responded to media request from International Herald Tribune

June 2012

Strategy Development

- Research into national subway and metro train media
- Continued developing proposal and recommendations around a signature Corporate Social Responsibility platform for Bombardier to execute in 2013

July 2012

Strategy Development

- Provided recommendation to participate in Fortune Global Forum in June 2013

- Met with Bombardier FlexJet to discuss potential New York media tour Continued developing proposal and recommendations around a signature Corporate Social Responsibility platform for Bombardier to execute in 2013

SINGAPORE ECONOMIC DEVELOPMENT BOARD

The following outlines Edelman's general public relations activities performed for Singapore EDB:

[Strategy and Planning]

- Developed 2012-2013 strategic PR & communications plan; updated messaging; developed key opinion leader engagement recommendations
- Participated in immersive account onboarding meetings in Singapore, and hosted EDB for mid-year account review meeting

[Media Materials and Outreach]

- **Press Releases**
 - Edelman distributed several press releases during this timeframe for various announcements/issues/events
- **Monitoring and Counsel**
 - Edelman conducted ongoing media monitoring of important news topics and shared relevant coverage with EDB as appropriate, and in weekly reports
- **Media Outreach**
 - The team pitched media for various announcements/issues/events, positioning EDB as a Home for Talent, Innovation & Business within Asia
- **Media Requests and Interviews**
 - The team secured interviews / article opportunities with the following and responded to their interview requests, including:
 - Top tier (*New York Times, Bloomberg BusinessWeek, FORTUNE, Dow Jones, Wall Street Journal, TIME*)
 - Trade (*Advertising Age, PharmAsia News, IN VIVO, Life Science Leader, ICIS News, GenomeWeb Daily News, Xconomy*)

[Opinion/Thought Leadership /Content]

- **Bylines and Op-eds**
 - Edelman secured interest for byline opportunity for EDB, coordinated in drafting
- **Content**
 - Edelman developed an infographic on behalf of EDB based on global competitiveness survey

[Influencer Engagement]

- **Conferences**
 - Conducted background research and outreach for conferences and events for EDB's potential participation

GRUPO VICINI

- Drafted a position statement
- Provided strategic counsel surrounding potential reactive-only messaging
- Developed content for VICINI's website
- Provided Search Engine Optimization training and recommendations
- Provided media training to two VICINI executives
- Drafted messages and developed communication materials

OERLIKON

Account is still open; however, no activity performed on this account during the reporting period.

KONGSBERG

Strategy Development

- Edelman team members supported Kongsberg's event demonstrating its CROWS system, a program of record for the US Army, to policymakers and the media.
- Edelman team members supported Kongsberg at an industry trade show.
- Edelman team members staffed Kongsberg informational meetings with research firms and think tanks.

Media Relations

- Reached out to and met with reporters attending an industry trade show
- Reached out to and met with defense reporters in the Washington area to schedule press briefings on PROTECTOR CROWS.

Design

- Designed Kongsberg's invitations for its demonstration and for the booth at the industry trade show.
- Designed Kongsberg's booth for the industry trade show.

MINISTRY OF FOREIGN AFFAIRS: UAE

- International media relations
- Storyline development and refresh
- Traditional and online media list refresh
- Traditional media pitching and engagement
- Includes identification of opportunities, outreach to seed relationships with DECC team/MoFA, backgrounders on those media with whom DECC/MoFA will meet for all secured opportunities, and support at press conferences as appropriate. – complete
- Stakeholder engagement
 - Traditional and Digital Stakeholder Mapping and Prioritization and plan
 - Stakeholder (includes identification of opportunities, outreach to stakeholders to seed relationships with DECC team/MoFA, backgrounders on those stakeholders with whom DECC/MoFA will meet for all secured opportunities, and support at press conferences as appropriate.) *conducted in support of Rio+20, CEM and IRENA*

PRESS RELEASES

**FARA SUPPLEMENTAL STATEMENT
FEB 01 – JULY 31, 2012**

Republic of Singapore:

News Release

**Mead Johnson Nutrition Breaks Ground on
US\$325 Million Investment in Singapore**

Investments to create approximately 180 new positions by 2014

Singapore, July 10, 2012 – Mead Johnson Nutrition (NYSE: MJN) today broke ground in Singapore on a US\$325 million facility that will enable the company to study pediatric nutrition and expand its capacity to produce leading infant formulas in the heart of the burgeoning Asian market.

The venture represents the largest single capital outlay in the company's history and will allow Mead Johnson to create approximately 180 new jobs over the next two years. Scheduled to be completed in 2014, the building project includes a state-of-the-art manufacturing plant, a Research & Development technology center and a new regional office.

Mr. Stephen W. Golsby, Mead Johnson's president and chief executive officer, said the project underscores the company's commitment to growing in Asia, a market where the need for pediatric nutrition has grown considerably in recent years.

"Over the past nine years, we have more than doubled the size of our global business, with sales now in more than 50 countries," Mr. Golsby said. "During that period, our sales in Asia have increased more than four-fold, and they now account for nearly half our worldwide revenues."

Singapore's central location, robust free-market economy, strong international trading links, outstanding infrastructure and well-established talent pool make it the ideal location to bring together senior regional leadership and various supply chain, marketing and research staff to further strengthen the company's operational effectiveness, customer responsiveness, and overall speed to market. In turn, Mead Johnson will create approximately 180 jobs in Singapore by the time the initial construction is completed, including a number of high-level professional, technical and scientific positions.

Mr Yeoh Keat Chuan, Managing Director of the Singapore Economic Development Board, said, "We warmly welcome Mead Johnson's decision to establish its manufacturing plant, R&D center and regional office in Singapore. The choice of Singapore as the location for Mead Johnson's first spray dryer in Asia is a reflection of the confidence in our strong track record as a trusted location for safe and high quality manufacturing. With this investment, Singapore now hosts the strategic regional operations of the top five infant nutrition companies in the world, making Singapore the baby nutrition capital in Asia."

Singapore's commitment to research, education, innovation and health make it the right fit for the newest facility of the Mead Johnson Pediatric Nutrition Institute or MJPNI – a global network dedicated to advancing and applying pediatric nutrition science to benefit infants and children worldwide. The MJPNI–Singapore will be the latest link in a global chain of resources – including technology centers, R&D facilities and partnerships with more than a hundred leading academic and clinical institutions – engaged in breakthrough research on critical issues in pediatric nutrition science.

"This facility will certainly serve the local markets and address Asian nutritional needs and preferences, but the impact of the work done at the Mead Johnson PNI here has the potential to be felt far beyond the borders of Singapore," Golsby added.

In addition to this research base, the company is committed to strengthening and caring for the communities in which it operates by engaging employees and giving back to society.

"At the center of our global charitable efforts is our signature philanthropic program – A Child's Best Start – working to support the needs of children in fragile and vulnerable circumstances, especially those who do not have parents to support them," explained Golsby.

"As part of our effort to extend A Child's Best Start locally, we have recently signed a memorandum of understanding to broaden our affiliation with Science Center Singapore. We have been engaged with the Center for the past three years and now we have agreed to further expand our cooperation to deliver special opportunities for Singaporean children in need."

"Although we have served the children and families of Singapore for more than forty years, today marks a new level of connection and engagement. We are proud to be deepening our roots here as we strive to fulfill the Mead Johnson mission – to nourish the children of Singapore, Asia and the world – for the best start in life."

###

About Mead Johnson

Mead Johnson, a global leader in pediatric nutrition, develops, manufactures, markets and distributes more than 70 products in over 50 markets worldwide. The company's mission is to

nourish the world's children for the best start in life. The Mead Johnson name has been associated with science-based pediatric nutrition products for over 100 years. The company's "Enfa" family of brands, including Enfalac (R) infant formula, is the world's leading brand franchise in pediatric nutrition.

July 18, 2012

Greatbatch to Establish R&D Center in Singapore

Will Be First Center in Singapore for the Design and Development of Active Implantable Medical Devices

18 July 2012, SINGAPORE – Greatbatch, Inc. (NYSE:GB) today announced that the company will establish an Active Implantable Medical Device (AIMD) Research and Development Center in Singapore, known as the QiG Singapore R&D Center. The establishment of this center is a continuation of Greatbatch's medical device strategy announced last year and the first step of its Asia strategy to engage in emerging healthcare markets.

"This announcement is another step in the process we began in 2008 to move Greatbatch forward and evolve from not only being an innovative component manufacturer but also being an innovator of complete medical device systems," said Thomas J. Hook, President and CEO of Greatbatch.

"Many factors contributed to our decision to establish the first multinational R&D center for active implantable medical devices in Singapore, including the nation's commitment to developing its biomedical sciences cluster, as well as the strong investment into its research organizations. The work being conducted at several national research institutes serves as a perfect complement to Greatbatch and QiG's resident expertise in the design and development of active implantable medical devices.

In 2008, Greatbatch formed a subsidiary, QiG Group, LLC, to empower the design and development of new medical devices for its core markets; cardiovascular, neuromodulation and orthopaedics. Some of these devices will fall into the category of Class III active implantable devices, classified as those that must meet highly stringent regulatory standards.

The QiG Singapore R&D Center will immediately focus on the design and development of active implantable medical devices to serve the cardiovascular and neuromodulation markets. Both are multibillion dollar markets with considerable growth rates.

To serve the Cardiovascular market, the company has identified needs in Interventional Procedures, Atrial Fibrillation ablation, MRI Conditional Systems, Obesity Therapy and Obstructive Sleep Apnea. To serve the neuromodulation market, the company is currently developing a Spinal Cord Stimulator called Algostim, which will treat chronic pain in the trunk and limbs.

“The devices that the QiG Singapore R&D Center will design and develop are to be implanted in the human body to deliver therapies that treat chronic symptoms,” said Daniel Kaiser, PhD., CTO of Greatbatch. “These are very complex systems and the QiG Singapore R&D Center will be staffed with the capabilities to bring these highly sophisticated devices through the development and regulatory stages to serve Asia Pacific and broader worldwide healthcare markets.”

The QiG Singapore R&D Center will be headed by Kulbir Sandhu, and will come under the direction of Dr. Kaiser. Sandhu spent the last eleven years at St. Jude Medical where he worked in their cardiac rhythm management and atrial fibrillation (AF) divisions. In his most recent position as Senior Director of R&D in St. Jude’s AF Division, Sandhu was responsible for assessing technologies to determine clinical viability, program risk, and return on investment by working with key opinion leaders and advisory councils. This included leading his team in the successful introduction of the SJM Confirm Cardiac Monitor – an implantable lead-less medical device.

The QiG Singapore R&D Centre is a significant development for Singapore’s biomedical sector – it is the first R&D centre for active implantable medical devices in Singapore and in Asia.

“We are delighted that Greatbatch has chosen Singapore as its first R&D Centre outside the US, to develop and commercialise medical devices for Asia and global markets. Companies are increasingly looking to Asia for growth opportunities, and Singapore is well-positioned to be a base for companies to innovate next generation medical devices due to its growing pool of R&D talent, strong clinical expertise and the ability to translate clinical needs from the region into new products” said Mr. Yeoh Keat Chuan, Managing Director of the Singapore Economic Development Board (EDB).

“As Greatbatch focuses on growth in our core business, growth through targeted acquisitions and growth through new, innovative medical devices, this exciting initiative will further allow Greatbatch to bring differentiating technologies to the marketplace while driving greater return for our shareholders,” Hook concluded.

###

About Greatbatch, Inc. Greatbatch, Inc. (NYSE: GB) provides top-quality technologies to industries that depend on reliable, long-lasting performance through its brands Greatbatch Medical, Electrochem and QiG Group. Greatbatch Medical develops and manufactures critical medical device technologies for the cardiac, neurology, vascular and orthopaedic markets. Electrochem designs and manufactures battery and wireless sensing technologies for high-end niche applications in the energy, military, portable medical, and other markets. The QiG Group empowers the design and development of new medical devices for our core markets. Additional information about the Company is available at www.greatbatch.com.

Asian IT services firms to see pressure on profits amid rapidly evolving competitive landscape

Despite a slight increase in market concentration, competition in Asia's information technology (IT) services sector remains fierce. Among publicly-listed Asian firms, the industry's largest players increased their market share between 2004 and 2009. However, Asia's IT services market remains highly competitive, and a more crowded playing field will continue to put pressure on profits. This is one of the key findings of *Asia Competition Barometer: Information technology services*, a new report from the Economist Intelligence Unit (EIU), supported by Singapore's Economic Development Board.

The Barometer draws on company-level data on profitability and other indicators to quantify the changing dynamics of competitiveness in Asia between 2004 and 2009. The Barometer's market concentration index increased marginally from 4.88 in 2004 to 5.73 in 2009 while the Barometer's profitability index declined to 81.8 in 2009, from a level of 100 reached in 2005.

Current trends in the IT industry suggest that unique factors will continue to drive profitability in each market. This could translate into marked profitability variations within Asia in the years ahead. Each company's profitability will be heavily dependent on its particular product and market spread.

"Asia's IT industry is evolving rapidly, as it faces a demand shift from the West to the East coupled with the advent of new technologies such as cloud computing" says Sudhir Vadaketh, editor of the report. "The best performing firms will be either those that can take on a high volume business in a cost-effective manner, or those that can provide a highly specialised or niche service."

Key findings of the report include:

- **Asia's IT services sector has been growing quickly, in line with the region's overall growth.** Several broad macroeconomic trends, including global corporations' increasing appetite for outsourcing their internal functions to Asia, higher demand for IT services from fast-growing Asian firms, and rising desktop PC, Internet and mobile phone penetration rates, have boosted demand for IT services in the region. Despite the sombre global economic outlook, the EIU forecasts that IT services spending in Asia will increase from US\$90.7bn in 2010 to reach US\$141.3bn by 2016.
- **Smaller players will need to provide highly specialised services in order to compete.** Current trends in the industry suggest that smaller firms are most at risk from the competitive landscape that is emerging. First, global firms seeking outsourcing partners to enhance their own operational efficiencies—a key driver of growth—will be looking for companies with size and scale. Second, small and medium-sized enterprises who might

otherwise have been customers for these smaller outsourced service providers may switch to on-demand IT capabilities available via cloud computing services, forgoing the need for third-party IT services players altogether. Nevertheless, there will continue to be opportunities for small firms that can provide a highly specialised or niche service.

- **Industry-leading firms could bring growth to other markets as they seek to escape rising costs at home.** Given rising wages, firms operating in India, which have been the market leaders to date in this sector, have been expanding to emerging low-cost centres, such as the Philippines. This trend will continue, as IT services firms are still in the early stages of leveraging their global footprint for the most cost-effective service delivery. This shift will also provide growth opportunities for domestic firms in these new markets.
- **Profitability in Asia's IT services sector has been declining, and margins in some markets, such as India, may have peaked.** The average gross margin of publicly-listed Asian firms declined from 47.8% in 2004 to 41.2% in 2009. Competition is only one factor pushing down profits. A number of others—from the global economic downturn, the commoditisation of certain services, rising wages and the advent of cloud computing—have put pressure on margins. To maintain profitability, many firms will try to move up the value chain, focusing on what is referred to as “non-linear growth”—that is, increasing revenue but not headcount—through R&D and by leveraging new technologies and applications, first and foremost those enabled by cloud computing.

About the research

Supported by Singapore's Economic Development Board (EDB), the Economist Intelligence Unit (EIU) has developed the Asia Competition Barometer with the aim of understanding the changing market dynamics in key sectors and assessing the intensity of competition in them. Drawing upon company-level data on profitability and other indicators, the Barometer quantifies the changing dynamics of competitiveness in Asia for select industries between 2004 and 2009.

The Barometer has two dimensions: profitability and market concentration. To assess the aggregate profitability of the IT sector in Asia, the EIU developed a composite index of five ratios that each represents a different aspect of a company's profitability. To assess market concentration, the EIU calculated the Herfindahl-Hirschmann Index (HHI) for the IT sector in Asia from 2004 to 2009. A measure of the size of companies in relation to the industry, and an indicator of the amount of competition among them, the HHI is defined as the sum of the squares of the market shares of the 50 largest firms from the universe of 296 listed companies assessed.

This report focuses on the Barometer findings for the IT sector. Assessing a universe of 296 IT companies that are publicly listed in eight countries—China, India, Indonesia, Malaysia, the Philippines, Singapore, Thailand and Vietnam—the Barometer examines changing profitability and the competition landscape for the IT sector.

Other reports in this series look at the information technology services, precision engineering, petrochemicals and chemicals, and pharmaceuticals sectors in Asia.

About the Economist Intelligence Unit

The Economist Intelligence Unit is the business information arm of The Economist Group, publisher of *The Economist*. Through our global network of more than 650 analysts and contributors, we continuously assess and forecast political, economic and business conditions in more than 200 countries. As the world's leading provider of country intelligence, we help executives make better business decisions by providing timely, reliable and impartial analysis on worldwide market trends and business strategies. Transport & logistics firms competing fiercely for Asia's growing market

Competition in Asia's transport and logistics (T&L) sector has intensified as new players enter what is one of the fastest growing regions for many industries. The largest publicly-listed Asian T&L players saw their market shares decline between 2004 and 2009, as new players, including many low-cost competitors, entered the business. This is one of the key findings of *Asia Competition Barometer: Transport and Logistics*, a new report from the Economist Intelligence Unit, supported by Singapore's Economic Development Board.

The Barometer draws on company-level data on profitability and other indicators to quantify the changing dynamics of competitiveness in Asia between 2004 and 2009. The Barometer's market concentration index declined to a five-year low of 4.34 in 2009 from a high of 5.78 in 2007 while the Barometer's profitability index declined to 83.3 in 2009, from a level of 115.3 reached in 2004.

Current trends in the T&L industry suggest that fierce price competition will continue. In such an environment, sources of competitive advantage will emerge both in big firms that can reap cost efficiencies and small firms that can serve niche segments.

"Asia is progressively accounting for a bigger share of global trade and transportation," says Sudhir Vadaketh, editor of the report. "Transport and logistics firms that can win market share here will be well-positioned for global expansion."

Key findings of the report include:

- **Asia's T&L sector has been expanding rapidly, in line with the region's stellar economic growth.** Several broad macroeconomic trends, including a widening manufacturing base, deeper intra-Asian trade integration, rising household incomes, high urbanisation rates and widespread government efforts to improve infrastructure have boosted demand for T&L services in Asia. The number of publicly-listed firms in Asia's T&L sector has increased dramatically, from 199 in 2004 to 275 in 2009. Total combined revenues more than doubled from US\$66.1bn to US\$140.8bn during the period. This growth looks set to continue, given Asia's relatively robust economic outlook.
- **Rising domestic demand in Asia will change the nature of trade in the region, creating new growth opportunities.** As the global balance of economic power shifts from the West to the East, and as private consumption in Asia picks up, the nature of trade flows in the region will change dramatically. Though component trade is still huge, and growing, there is evidence of a relative shift towards final demand. This suggests that shorter-haul freight companies concentrating on the region will grow faster than those focussed on long-haul routes, for instance between Asia and Europe. Small T&L firms able to serve remote parts of Asia where incomes are rising—such as commodity-rich parts of Indonesia—stand to boost revenues.
- **Asia's evolving manufacturing footprints will affect the region's T&L industry by shifting demand to newer markets.** Several broad trends are causing a rethink of Asian manufacturing, including rising wages in China, which are leading to the move of low-cost manufacturing away from the south and coastal areas of that country to inland provinces and neighbouring countries such as Vietnam. T&L firms will need to adapt to these changing dynamics in order to maintain profitability.
- **Profitability in Asia's T&L sector has been declining, as competition intensifies.** The average gross margin of publicly-listed Asian firms declined from 49.8% in 2004 to 39.8% in 2009. Competition is only one factor pushing down profits. A number of others—including the global economic downturn, higher fuel costs and rising wages—have put pressure on margins. To maintain profitability, many firms will have to focus on specific growth niches, such as low-cost air travel or express and freight forwarding services, particularly in China and India.

**United Arab Emirates Provides Insight on “Black Gold and the Green Economy”
at Rio+20 Summit**

UAE, Norway Collaborate to Evaluate the Place of Hydrocarbon Exporters in the Sustainability Agenda

Rio de Janeiro, Brazil, 20 June 2012 – The United Arab Emirates, in partnership with the Kingdom of Norway, hosted the official United Nations side event, “Black Gold and the Green Economy: Hydrocarbon Exporters’ Perspectives,” at the Rio+20 United Nations Conference on Sustainable Development. Both the UAE and Norway have emerged as vocal champions of clean energy and green growth through national policy and overseas development assistance, while remaining two of the world’s largest and most reliable hydrocarbon exporters. Drawing on diverse views from the public and private sectors, the event examines the sustainability rationale in hydrocarbon-exporting countries, as well as their role in the global transition to sustainable development. The event marks the summit’s only direct discussion of oil and gas in the Rio+20 agenda.

Opening remarks by Dr. Rashid bin Fahad, UAE Minister of Environment, and Audun Garberg, Norwegian Undersecretary of the Environment, addressed both the drivers and barriers that shape long-term economic, social, and environmental health and performance in their countries. José María Figueres, president of the Carbon War Room and former president of Costa Rica, moderated the interactive, conversation about hydrocarbon exporters’ motivations for pursuing green growth measures and the likely sustainability efforts in energy-exporting countries over the next decade given the direction of world energy markets. Panelists include:

- Bader Al-Lamki, Director of Clean Energy and Carbon, Masdar
- Phillipe Benoit, Head of Energy Efficiency and Environment, IEA
- Michael Liebreich, CEO, Bloomberg New Energy Finance
- Hege Marie Norheim, SVP of Climate, Statoil
- Samantha Smith, Global Head of Climate, World Wildlife Fund
- Nejib Zaafrani, CEO, Dubai Supreme Council of Energy

“The national experiences unique to the UAE and Norway show that there is a robust rationale for diversifying and evolving our energy markets, leveraging our historic expertise. We are in the vanguard of clean energy deployment at home and abroad because we understand the costs of resource inefficiency and the importance of having a diversified energy mix,” said Dr. Sultan Ahmed Al Jaber, The UAE Special Envoy for Energy & Climate Change, and Chief Executive Officer of Masdar, the UAE’s pioneering clean energy and sustainable development company.

Reflecting this outlook, the UAE has made unprecedented multi-billion-dollar investments in renewable energy, urban sustainability, and carbon and environmental management in the last decade. Domestically, the UAE has committed to over 2500MW of solar and wind projects, while abroad its portfolio includes the London Array, the world's largest wind farm, and the pioneering Gemasolar in

Spain, which can supply solar power around the clock. The UAE is also a major supporter of UN Secretary-General Ban Ki-moon's Sustainable Energy for All initiative, implementing grant-based renewable energy projects in the Seychelles, Tonga, Afghanistan, and Mauritania.

The UAE has moreover developed as a global hub for cooperation on clean energy and sustainability. It hosts the 157-country International Renewable Energy Agency, as well as the regional office of the Global Green Growth Institute, and each year brings over 25,000 leading business and government representatives to the World Future Energy Summit, the premier conference on the clean energy sector. Masdar City, a global incubator for cutting-edge sustainable urban technologies, and Masdar Institute, a research university developed with MIT, furthermore foster continual partnership with leading global sustainability innovators.

"Collaboration between governments and the NGO sector is imperative to illuminating the right approach to protecting the environment while supporting efforts that will build a green economy," said Dr. Rashid Ahmad Bin Fahad, UAE Minister of Environment and Water. "The UAE has emerged as a hub for international sustainability cooperation, as demonstrated by its role as host to the International Renewable Energy Agency, as well as its development of Masdar City and the Masdar Institute, the Middle East's most renowned research Centre that incubates and disseminates clean technology in partnership with leading global innovators."

"Black Gold and the Green Economy" will take place on 20 June 2012 at 7:00 pm, at Rio Centro, Pavilion 3. Seating is limited to 100 guests.

About The United Arab Emirates at the Rio+20 UN Conference for Sustainable Development

The UAE is innovating and empowering others to build a sustainable future for all, building on the legacy of its founding fathers to deliver on promises today. Through advanced thinking and technology, the UAE is bringing to life action-oriented ideas and innovation that lead to a sustainable economy, environment and society. As part of a growing international movement, the country is collaborating with like-minded nations to continuously learn best practices, build upon progress, and create a sustainable future for all. Learn more about the UAE and its support of global sustainability at www.uaerplus20.ae, and on Twitter at [@UAE_RioPlus20](https://twitter.com/UAE_RioPlus20), or the UAE pavilion at the United Nations Earth Summit in Rio de Janeiro June 13-22.

The UN Conference on Sustainable Development Rio+20 is organized by the United Nations in coordination with the Brazilian government, celebrating the 20th anniversary of the original

Earth Summit in Rio de Janeiro. More than 130 heads of state and government will attend, joined by over

50,000 representatives of business, NGOs, government, and civil society.

United Arab Emirates: A 40-Year Transformation Toward Sustainability

UAE Pavilion Hosts Interactive Experience at Rio's Athletes' Park

Rio de Janeiro, Brazil, 14 June 2012 – This summer, as the world comes together for the United Nations Conference on Sustainable Development 20 years after the original Earth Summit, the United Arab Emirates is proud to illustrate just how quickly the UAE has evolved toward sustainability since its own inception 40 years ago. On June 13 at Athletes Park, the country unveils its UAE pavilion, an interactive means for conference attendees and visitors to experience the UAEs vision for a green economy and commitment to sustainable development for all.

Through the incubation of advanced clean technologies, cross-border economic investments and critical development around the world, the UAE is making real-world progress toward a more sustainable future, said Her Excellency Sheikha Lubna Al Qasimi, UAE Minister of Foreign Trade and head of the UAE delegation. Innovation must extend beyond our borders. We believe in sharing our knowledge, promoting technology access, and encouraging partnerships to realize solutions.

The 500squaremeter pavilion replicates a traditional Arabic fort, with a modern twist. Explore the pavilion virtually on the website www.uaerioplus20.ae Visitors are able to experience the UAEs transformation toward sustainable development through an interactive timeline and touch-screens showcasing the country's achievements, initiatives and vision of a sustainable future.

"Sustainable energy and the exchange of knowledge among like-minded countries are the catalysts for economic growth and equitable development," said Dr. Sultan Ahmed Al Jaber, UAE Assistant Minister of Foreign Affairs and Special Envoy for Energy and Climate Change. "Through intellectual and financial investments, such as our cutting-edge solar deployment at the Torresol Energy projects in Spain and our leadership in IRENAs Global Solar and Wind Atlas, the UAE is supporting international technology transfer for greater economic development and clean energy advancement."

Attendees are welcome to visit the UAEs pavilion to and:

- Walk through the past four decades of the UAEs journey toward sustainable development and learn how the country is managing its exponential urban growth;
- Visit the theater and engage in discussions with members of the UAE delegation about its empowerment of women, sustainable tourism, renewable energy initiatives and more.

United Arab Emirates public and private organizations represented at the pavilion will include:

- Ministry of Foreign Trade
- Ministry of Energy
- Ministry of Water & Environment
- Dubai Supreme Council of Energy
- Ministry of Foreign Affairs Directorate of Energy and Climate Change
- Dubai Economic Council

- Prime Minister Office

- Masdar
- Masdar Institute
- Environment Agency – Abu Dhabi
- Abu Dhabi Sewerage Service Company
- Abu Dhabi Urban Planning Council
- Zayed International Prize for the Environment
- Higher National Security Council
- DubaiEXPO 2020
- Abu Dhabi Education Council
- Emirates Nuclear Energy Corporation
- Abu Dhabi Tourism & Culture Authority
- Zayed Future Energy Prize

All registered participants and the public are welcome to visit the UAEs pavilion and encouraged to participate in the discussion of new ideas that promote and deploy the very best practices for sustainable development. A full list of pavilion activities can be found below, and check online for the most updated schedules here, www.uaerioplus20.ae. All events will take place in the UAEs pavilion at Athletes Park, unless otherwise noted.

Her Excellency Sheikha Lubna Leads UAE Delegation at Rio+20

United Arab Emirates Advances National Sustainability Priorities at United Nations Conference on Sustainable Development

Rio de Janeiro, Brazil, 19 June 2012 – Rio de Janeiro, Brazil, 19 June 2012- Today Her Excellency Sheikha Lubna bint Khalid bin Sultan Al Qasimi, UAE Minister of Foreign Trade, arrived in Rio de Janeiro as head of the United Arab Emirates delegation at the Rio+20 United Nations Conference on Sustainable Development. She is backed by a delegation representative of more than 20 public and private sector entities from across the country that share the nations vision for a green economy and are actively working to advance the Rio+20 agenda in support of global sustainable development for all.

Seeing our nation's progress towards sustainable energy over the past four decades makes me proud of what we've achieved in such a short time. The legacy of responsibility instilled on us by our founding father Sheikh Zayed bin Sultan Al Nahyan has never been clearer than it is today, said Her Excellency Sheikha Lubna Al Qasimi, UAE Minister of Foreign Trade and head of the UAE delegation. And yet we are inspired to do more. We have come to Rio to be active participants in the global effort to put the world on a sustainable path, and look forward to sharing with the world how a small and dynamic society is innovating and empowering to build a sustainable future for all.

At Rio+20, H.E. Sheikha Al Qasimi will address heads of state and world environmental leaders during the official Rio+20 high level plenary session on Thursday, 21 June. Her remarks will

reflect the UAEs pursuits in the Rio+20 negotiations to ensure the United Nations text negotiations align with the country's economic, environmental and societal sustainability priorities.

"The UAE remains hopeful the world can reach international consensus on ambitious Sustainable Development Goals, build upon concrete initiatives such as Sustainable Energy for All, and promote access to environmental and societal data and information. Our delegation stands ready to move these outcomes forward, and to share our nation's vision for a green economy and our commitment to sustainable growth," said Sheikha Al Qasimi.

"Her Excellency gives powerful voice to our country at Rio+20 because innovation does not end at our borders. Under her patronage, we are eager to share how the advancements we are making at home can empower others through the incubation of advanced clean technologies, cross-border economic investments, and critical development assistance around the world," said Dr. Sultan Ahmed Al Jaber, UAE Special Envoy of Foreign Affairs for Energy & Climate Change, and Chief Executive Officer of Masdar.

=====

About The United Arab Emirates at the Rio+20 UN Conference for Sustainable Development

The UAE is innovating and empowering others to build a sustainable future for all, building on the legacy of its founding fathers to deliver on promises today. Through advanced thinking and technology, the UAE is bringing to life action-oriented ideas and innovation that lead to a sustainable economy, environment and society. As part of a growing international movement, the country is collaborating with like-minded nations to continuously learn best practices, build upon progress, and create a sustainable future for all. Learn more about the UAE and its support of global sustainability at www.uaerioplus20.ae, and on Twitter at [@UAE_RioPlus20](https://twitter.com/UAE_RioPlus20), or the UAE pavilion at the United Nations Earth Summit in Rio de Janeiro June 13-22.

Grupo Vicini, Ltd. and Edelman

**STATEMENT OF WORK
May 10, 2012-May 9, 2013**

Pursuant to the Agreement by and between Grupo Vicini, Ltd. ("Client") and Daniel J. Edelman, Inc., doing business as Edelman ("Edelman") dated May 10, 2010, this Statement of Work is incorporated into and subject to the terms and conditions of the Agreement. The parties agree to the below Scope of Services and financial terms:

SCOPE OF SERVICES

Overview

Edelman shall provide the following services:

- Review materials
- Attend meetings as requested
- Develop communications scenarios
- Provide strategic counsel as needed

Any items not contemplated above will be considered outside the Scope of Services. If Client expands the Scope of Services, the amount required to perform the additional services will be agreed upon and an Addendum will be attached to the current Statement of Work.

TERMS

Fee Billing. At the end of each month, Edelman shall invoice Client the exact fees based upon the hours incurred in performing the Services during that month. Such fees will be based upon Edelman's rate card ("Rate Card") as described below. Edelman shall not exceed monthly hourly cap of \$20,000 without Client's prior written consent (email approval shall be deemed acceptable).

Expense Billing. Edelman shall invoice Client the actual out-of-pocket expense amount(s) at the end of the month on an as incurred basis. Actual expenses may vary from any estimated amounts provided in the Budget section. In addition, Client shall pay a monthly charge equal to 6% of monthly fees for internal expenses as set forth in the Agreement. Edelman shall not provide Client with an accounting or detail for such charge.

Invoices. Edelman will render invoices to include professional services detailed by person and expenses by category. Documentation for out-of-pocket expenses will be available upon request. Payment of the invoices will be due net thirty (30) days from the invoice date. All such invoices shall be addressed to:

Name:	Mr. Campos de Moya
Company Name:	Corporate Vice President, Communications and Institutional Relations
Address:	Vicini Av. Winston Churchill No. 5 Torre Progreso, Santo Domingo, RD

Purchase Order. The client Purchase Order number is N/A.
