**From: Adrian Karatnycky, Managing Partner, Myrmidon Group

**Re: Consultancy Proposal Scope of Work (January 2013-December
2013)**
Date of Preparation: 15 January 2013
Effective Date: 1 January 2013
**Republika Srpska: Telling a Story of Market Based Growth,
Democratic Practice, and Pragmatic Governance**

Republika Srpska (RS) can greatly benefit its image, find understanding for its policy goals, and encourage foreign direct investment by systematically telling the story of its internal accomplishments as one of the two recognized entities within BiH. Toward this end Republika Srpska needs to continue to work to present itself to the government, business, policy, and media communities of the US and Europe in a way that accurately reflects the reform-oriented nature of its policies.

As part of this approach, in 2013, RS outreach efforts—supported by Myrmidon Group LLC—should focus on: a) important progress by Republika Srpska in moving toward European best practices and standards; b) the continued vibrancy of RS democratic institutions and processes as confirmed by competitive local elections held in 2012; c) RS's commitment to efficient and lean government at a time of economic difficulty throughout Europe; d) RS's willingness to cooperate across ethnic and political lines on the basis of respect for its rights under the Dayton Accords.

The communication of these messages is especially important in 2013, a year which will see a wholesale leadership change in the U.S. Department of State.

On the economic front, one of the main characteristics of globalization has been the reduction of barriers to international capital flows. As a consequence, these have expanded enormously relative to trade flows. Trade and FDI complement each other in building international confidence. The policy implication is that further international cooperation in reducing barriers to both trade and capital flows can promote a more positive image of Republika in Europe and North America and allow it to be seen as a pillar of Southeast European stability.

It is vital that information on the RS government's efforts toward further streamlining of business registration procedures through additional regulatory simplification be systematically communicated to the U.S. investment community and the U.S. government, as an indicator that Republika Srpska is open for significant foreign direct investment and financing.

The focus of this proposal is two-fold:

- a) Political and Policy Outreach—i.e. accurately conveying a view of the RS as an stable entity led by a democratic and market-friendly leadership that is committed to participating in European institutions;*
- b) Economic and Business Outreach—focused on increasing investor attention to the RS in North America and through European affiliates of North American companies and thus seeking to increase foreign direct investment and other types of capital flows into Republika Srpska, with particular emphasis on small and mid-size business development.*

a) Political and Policy Outreach

In 2013, a comprehensive program of outreach will be aimed at the U.S. policy, think tank, and business communities and will focus on a better understanding of reform-oriented policies Republika Srpska has already taken, but that are not widely known in North America. A second focus of this outreach will be on deepening outreach to the U.S. Congress, to U.S. policymakers and the U.S. government to promote the decentralized development of Republika Srpska, as envisioned by the Dayton Accords.

On the policy side, the leadership of Republika Srpska seeks to work inside BiH within the context of the Dayton Accords. This approach needs to be better understood by the policy community and US government and Congressional leaders as a pillar of regional stability.

The capable team of RS government leaders moving the country toward a more open market economy must be at the center of our proposed outreach efforts. In 2013, we propose a program of enhanced outreach to the US business, government, media, and policy communities. To ensure the success of such efforts, we envision regular visits by RS officials to the U.S.

b. Economic Policy and Investment Promotion Outreach

Republika Srpska has significantly reduced the number of days required to start a business, resolve commercial disputes, obtain construction permits, and register property, all with a significant reduction in the number of steps and required procedures. Also, the amendments to the Bill Law on Policy of Direct Foreign Investments and the Republika Srpska law on Foreign Investment allowing the RS Government to eliminate the 49 percent restriction on special purpose industry acquisitions and to reduce the number of procedures for registration of

foreign investment work to make RS increasingly attractive to foreign investors. The emergence of new investment opportunities in the energy sector is one sign of this trend.

This proposal is focused on the U.S., where Myrmidon Group LLC has strong contacts with the business community, the policy community, government, and the media.

The scope of work envisioned is for the period January 2013 to December 31, 2013 at a rate of US \$ 70,000 (seventy thousand US dollars) per month for a total of US \$ 840,000 inclusive of personnel, administrative costs, legal advice, and program expenditures as itemized in Addendum 1, which is a part of this proposal.

Challenges

1. To rebrand RS as an entity that a) is stable b) is working within the context of BiH but benefiting from close relations with Serbia; c) is confidently rebuilding in the aftermath of conflict; d) is growing on the basis of a commitment to free markets and market principles; e) has learned from the tragic lessons of the past; f) is shaping its cooperation within BiH in the context of the Dayton Accords.
2. To reach investors interested in smaller niche frontier and emerging markets.
3. To promote 5-10 specific investment opportunities to attract Western and in particular US investors.
4. To accurately project the current leadership as strongly protective of the Serbian populations interests, while at the same time pragmatic, market-oriented, and committed to peaceful cooperation in a multiethnic context.
5. To demonstrate that the RS government is led by competent modern technocrats and experts and committed to pragmatic reform policies.
6. To assist RS and RS companies in efforts to secure financing—if required-- through the issuance of international bonds.
7. To reach out to Serbian Americans active in the business world and interest them in the opportunities to invest in RS.

7. Preparation and dissemination of occasional newsletters and documents to policymakers, media, and U.S. government officials that highlight important developments in RS and in BiH.
8. Deepening of relationships with the leadership of the U.S. Jewish community.
