

REPORT OF THE ATTORNEY GENERAL  
TO THE CONGRESS OF THE UNITED STATES  
ON THE ADMINISTRATION OF THE  
FOREIGN AGENTS REGISTRATION ACT OF 1938, AS AMENDED

May 1953

- - - - -

TO THE SENATE AND HOUSE OF REPRESENTATIVES OF THE  
UNITED STATES OF AMERICA IN CONGRESS ASSEMBLED:

I have the honor to report on the administration of the Foreign Agents Registration Act of 1938, as amended, pursuant to Section 11 of that Act, which requires the Attorney General from time to time to report to Congress concerning the administration of the Act, as well as the nature, sources and content of political propaganda disseminated or distributed by agents of foreign principals registered under the terms of the Act.

This report is concerned with the administration and enforcement of the Foreign Agents Registration Act for the calendar year 1952 and is submitted in supplement to the report for the years 1942-1944, the report for the years 1945-1949, and the reports for the calendar years 1950 and 1951.

During 1952, forty-nine registration statements were filed by

agents of foreign principals as defined in Subsections (1) to (4) of Section 1(c) of the Act. In addition, thirty-one individuals filed registration statements as a result of the agency status created by Section 1(c)(5) of the Act, which is Section 20(a) of the Internal Security Act of 1950, and includes within the definition of the term "agent of a foreign principal" any person who has knowledge of or has received instruction or assignment in the espionage, counterespionage or sabotage service or tactics of a government of a foreign country or of a foreign political party. A list of these registrants is contained in Appendix VIII.

Fifty-two registration statements were terminated in the calendar year 1952, leaving a total of 234 active registration statements in the Department's file as of December 31, 1952, in addition to the total of 48 statements filed pursuant to Section 1(c)(5). Exhibits A or short-form registration statements were filed by 251 individuals as officers, directors, employees or other persons rendering assistance to the registrant in the interest of the foreign principal.

The Foreign Agents Registration Act is administered by the Foreign Agents Registration Section of the Criminal Division and consists, in addition to the Chief of the Section who is also Chief of the Internal Security Section, of an Assistant Chief, three attorneys and four clerical employees. In compliance with the provisions of the Act the Foreign Agents Registration Section maintains in permanent form one copy of all registration statements and all statements concerning the distribution of political propaganda furnished under the Act as public records and

makes them available for public examination and inspection. Photocopies of the statements filed under the Act are furnished to applicants at a reasonable fee.

In its administration of the Act, the Foreign Agents Registration Section undertakes to answer inquiries from individuals and organizations as to their possible obligations under the statute and answers inquiries from the general public as well as from Government officials as to the content of registration statements.

While staff limitations prevent any continuing and detailed analysis of the propaganda material filed with this Department pursuant to the Act, each item of propaganda received is checked for compliance with the filing and labeling provisions of the statute. Periodically the Federal Bureau of Investigation is requested to conduct appropriate investigations to determine whether registrants are fulfilling their obligations under the Act. As part of such investigative procedure the books and records of certain registrants are inspected by agents of the Bureau in accordance with the authority granted for such examination by Section 5 of the Act and the rules promulgated thereunder by the Attorney General. In the exercise of this authority Bureau agents have examined, among others, the books and records of the Four Continent Book Corporation, the agent of Mezhdunarodnaja Kniga; Artkino Pictures, American agent of Sovexport Films; and Russky Kustar, a West Coast bookstore handling Soviet publications.

In its administration and enforcement of the Act the Department relies chiefly on the investigative reports of the Federal Bureau of

Investigation for information regarding the activities of persons who may be acting within the United States as agents of foreign principals. The Act is administered and enforced primarily with a view toward obtaining as full disclosure as possible regarding the activities of persons who are acting within this country as agents of foreign principals, especially such as are engaged in the dissemination or preparation of political propaganda.

A functional analysis of the registration statements filed under the terms of the Act reveals that the majority of persons registered are engaged in publicity activities, whether as public relations advisers, publicity agents, information service employees, advertising agencies, representatives and leaders of political movements, or official government information or tourist offices. On the other hand, a considerable number of persons register who do not engage in any publicity activity, such as attorneys and commercial and financial agencies. The registration statements filed in 1952 follow this same functional pattern. Thirty-five of the 49 statements filed in that year were submitted by persons engaged in publicity activities of some form or other, while ten statements were filed by attorneys and the remaining four by commercial or financial agents. A detailed functional analysis of the 49 registration statements filed in 1952 will be found in Appendix V.

Of the 52 registration statements terminated in 1952, three were for individuals who had been employed by the Soviet Embassy in connection with the publication and distribution of the Soviet Information Bulletin and who lost their employment as a result of a ruling by the Department

of Stat in July 1952 that the Soviet Embassy would no longer be permitted to distribute the Bulletin within the United States. Four American citizens employed by the Soviet Embassy on the Bulletin staff continued their registration statements since their employment continued in the Press Department of the Embassy.

As indicated in the report for the calendar year 1951, a considerable number of foreign governments continue to have on their diplomatic staffs information officers, including press, publicity and cultural attaches, and issue a sizeable amount of propaganda material directly from their embassies and legations. Because of the exemptions from registration provided by Section 3(a) of the Act, no information is received as to the amounts expended for such propaganda activity. No communist-dominated country maintains within the United States an information office separate and apart from the embassy or legation. Since the closing of the Polish Research and Information Service by the Department of State in August 1951, two American citizens formerly employed by the Polish Research and Information Service are registered since they have been retained by the Polish Embassy to continue functions for the Embassy similar to those previously performed for the Information Service.

The nature of the political propaganda disseminated within the United States by agents of foreign principals has not varied to any marked extent in the approximately eleven years during which the Department of Justice has administered and enforced the Foreign Agents Registration Act. Propaganda disseminated throughout the United States

still takes the form of press releases, pamphlets, books, illustrated magazines, handbills, petitions, speeches, bulletins, news reports, motion pictures, films, slides and radio broadcasts.

In the main, the content of political propaganda aims to create good-will among the citizenry of the United States toward the country responsible for the dissemination of the propaganda material. Changes and shifts in the international political scene will, of course, reflect a change in the content of political propaganda. The greatest volume of published material continues to be disseminated by official government information and tourist offices, chief among which are the British Information Services, Israel Office of Information, Government of India Information Services, Information Office of the Republic of Indonesia, Netherlands Information Service, Belgian Government Information Center, and The American-Swedish News Exchange, Inc. Other government offices that consistently disseminate political propaganda to the American public are: Spanish Tourist Office, Italian State Tourist Office, Turkish Information Office, Dominican Republic Information Center, Egyptian Information Bureau, Yugoslav Information Center and Australian News and Information Bureau. A complete list of all government information and tourist offices registered with this Department together with amounts received by such agencies from their governments and the amounts expended within the United States as well as the number of their employees will be found in Appendix VI.

In its administration and enforcement of the Foreign Agents Registration Act, the Department during the calendar year 1952 devoted

considerable study to the problems presented by the importation of communist propaganda, particularly with regard to obtaining the fullest possible disclosure of such propaganda activities under the terms of the Act.

The four principal outlets for communist political propaganda within the United States by persons who are registered with this Department under the Foreign Agents Registration Act are: (1) Four Continent Book Corporation, registered as an agent of Mezhdunarodnaja Kniga, the All-Union Soviet book combine, People's China, Hong Kong Distributing Office, and World Federation of Trade Union Publications, Ltd., London; (2) Artkino Pictures, Inc., which distributes motion pictures within the United States as the agent of Sovexport Film, USSR, Sovromfilm, Rumania, and Centrala Wynajmu Filmow, Poland; (3) Edwin S. Smith, a literary and photo agent, who, in addition to the foreign principals previously reported by his predecessor, Helen Black, also began representing in the year 1952 the Legation of the Hungarian People's Republic, Washington, D. C., the Czechoslovakian Embassy, Washington, D. C., the Polish Embassy, Washington, D. C. and the Legation of the Romanian People's Republic, Washington, D. C., as well as Mezhdunarodnaja Kniga, Moscow, and Zentral Bild, Berlin, a photo distributing agency under the supervision of the East German Government; (4) Imported Publications and Products, which, in addition to the foreign principals represented in 1951, became distributing agents during 1952 for Centrul de Librarii Si Difuzare A Cartii, Bucharest, Rumania; Guozi Shudian, Peking, China; China Reconstructs (bimonthly magazine), Shanghai,

and China Monthly Review, Shanghai. Typical of the printed material distributed by Four Continent and Imported Publications and Products are such items as "Pravda" and "Isvestia;" a weekly current events journal in English entitled "New Times;" the weekly organ of the Information Bureau of the Communist and Workers' Parties, "For a Lasting Peace for a People's Democracy," published in Bucharest, Rumania; a political and labor magazine entitled "Labour Monthly," published in London; "People's China," an English-language journal published in Peiping and transmitted to the United States by the Hong Kong Distributing Office; an illustrated monthly entitled "Soviet Union," which is published in six languages including English; and a monthly literary magazine entitled "Soviet Literature" and published in Moscow. In addition to these regularly issued publications, the Iron Curtain countries disseminate books on scientific and cultural works which invariably contain some political propaganda, pamphlets on communist political or social life considered to be of special significance as well as numerous biographies of leaders of the Soviet Union and satellite countries, past and present, and the roles such leaders have played in their respective countries.

A quantity of communist political propaganda is being transmitted into the United States to persons who are not registered with this Department under the terms of the Foreign Agents Registration Act. An opinion of the Attorney General dated December 10, 1940 states in substance that political propaganda transmitted into the United States in violation or circumvention of the Act may be declared non-mailable by the Postmaster General. By analogy, therefore, such material may be seized by the

Bureau of Customs as an importation contrary to law when such transmittal is otherwise than through the mails. Consequently, this Department has maintained a close liaison with representatives of the Post Office Department and Bureau of Customs to prevent the transmittal in the United States mails or by any other instrumentality of interstate or foreign commerce of foreign political propaganda whenever there is any indication that such transmittal may be in circumvention of the Foreign Agents Registration Act.

Marked increases in the distribution of political propaganda in this country have been noted with regard to the Egyptian Information Bureau, German Tourist Information Office, Robert T. Oliver as agent for the Korean Pacific Press and the Republic of Korea, and the Moroccan Office of Information and Documentation. The growing strength of certain political independence movements is evidenced by the registration during 1952 of representatives of the National Council of the Republic of Poland in London; by the Ukrainian National Council of West Germany; by agencies of Czechoslovakian independence movements and by increased activity on behalf of Tunisian and Moroccan independence movements. It is also interesting to note that there was one registration by a representative of the Socialist Reich Party, Hanover, Germany, which has been characterized in the public press of this country as a political movement patterned after the National Socialist Party led by Adolf Hitler.

The reestablishment of trade and diplomatic relations between the United States and Japan is reflected to some extent by the registration of Wendell P. Colton Company, an advertising firm, on behalf of the Japan

Travel Information Office, the retention by the Japanese Government as a public relations consultant of Lykke Wilkin & Associates, and by the employment of the law firm of Baar, Bennett & Fullen as attorneys for the Council on Tuna Export of Japan.

In view of the general interest in the amount of money received by persons acting within the United States as agents of foreign principals, this report contains for the first time a summary showing the amount of money received by American individuals and organizations from their foreign principals during the past five years. This summary, which appears as Appendix VII, does not include registrants who are primarily foreign instrumentalities or are direct agencies of foreign governments. As indicated, the financial information regarding foreign agencies is contained in Appendix VI, showing amounts received and expended by official government information and tourist offices.

In addition to the appendices previously mentioned the report contains in Appendix I a list of persons who filed public registration statements under the Act during 1952, other than those whose agency status was created under the terms of Section 1(c)(5) (Section 20(a) of the Internal Security Act of 1950). These registrants are listed in this Appendix according to registration number and those registrations which were terminated during the year are indicated therein by an asterisk. Appendix II consists of an alphabetical list of registrants with terminations also denoted by an asterisk. This appendix also contains the names of the foreign principals as set forth by the registrant together with a brief description of the nature of the agency. In Appendix III

are listed the names of all persons who have filed registration statements with this Department since June 1942, when the administration of the Act was transferred to the Department of Justice and which were in an active status as of December 31, 1952, presented according to geographical area or nationality field. This appendix contains for the first time the nationality fields of Yemen and Ecuador. An alphabetical list of individuals who during 1952 filed an Exhibit A to a registration statement filed in the name of another individual, corporation, partnership or other combination of individuals as an officer, director, employee or other person rendering assistance to the registrant in the interest of the foreign principal is contained in Appendix IV.

Respectfully submitted,

  
Attorney General
