Foreword

To the Senate and House of Representatives of the United States of America in Congress Assembled:

On behalf of the Attorney General I have the honor to report on the administration of the Foreign Agents Registration Act of 1938, as amended, pursuant to Section 11 of the Act (22 U.S.C. 621), which requires the Attorney General to report every 6 months to the Congress concerning the administration of the Act, as well as the nature, sources and content of informational materials disseminated and distributed by agents of foreign principals registered under the Act. This report covers the administration and enforcement of the Foreign Agents Registration Act for the 6 months ending December 31, 1999.

The text of this report lists, according to geographical area or nationality field, all agents who were registered at any time during the second 6 months of 1999, or who reported for the first time in that period activities, receipts or disbursements for the previous period. It includes the identities of the agents and their foreign principal(s), a description of the agent's activities, a total figure for monies received, a description of any informational materials disseminated, and a listing of all individual agents.
This report includes a number of improvements made possible by the ongoing conversion of the Foreign Agents Registration Act records system from a paper based filing system to a computerized filing system. This report will also be made available through the Department of Justice website on the Internet at http://www.usdoj.gov/criminal/fara/.

The principal purpose of Congress in enacting the Foreign Agents Registration Act was to ensure that the Government and the people of the United States would be informed of the identity of persons engaging in political activities for or on behalf of foreign governments, foreign political parties and other foreign principals, so that they might appraise their statements and activities in the light of their associations.

Registration under the Act does not imply recognition by the United States Government of the legitimacy of any particular foreign government, or foreign political party. Furthermore, registration does not indicate approval by the United States Government of the activities of any registered agent or the content of any informational materials they disseminate.
Statistical Summary

During the 6-month period ending December 31, 1999, the Department received 34 new registration statements and terminated 17 registrations, leaving a total of 495 active registrations, representing 697 foreign principals on file as of December 31, 1999. Individuals acting as officials or employees or rendering assistance to a registrant for or in the interests of the latter's foreign principal filed 273 new short-form registration statements under the Act, bringing the total of active short-form registrations to 2,454 as of December 31, 1999. There were 94 new agreements with foreign principals reported by agents under the Act during this period.

Pursuant to P.L. 102-395 enacted on October 6, 1992, which authorized the Attorney General to establish fees to recover the cost of administering the Foreign Agents Registration Act, $226,490.50 in filing fees was received during the 6-month period ending December 31, 1999. A total of $3,922,633.30 has been collected since the program was initiated through December 31, 1999.

Respectfully submitted,
